Trusted by SA moms for over 15 years

Dear Parents

Lice can be a parent's worst nightmare! While you are being the best parent you can be, you need a product you can trust. By combining either the **Controllice® Oil Spray** OR **Head Rinse with the Controllice® Lice Comb** OR **Lice Buster Comb**, you can effectively **ELIMINATE and REMOVE** the head lice and nits already infesting your child's hair.

Here are some quick facts from Controllice® to ensure that you are super clued up when it comes to these little villains:

- Lice are very common, anyone can get them.
- Having lice is not a sign of uncleanliness or poor hygiene.
- Head lice do not spread disease.
- Head lice only live on human hair (not animals).
- Head lice do not jump or fly. They are spread by head to head contact with someone who has lice and by sharing things that are in direct contact with a person's hair - such as combs, brushes, hats or bed linen.
- Lice glue their eggs, called 'nits' onto the hair shaft near the scalp so they can't get brushed off.¹

Controlice® is available at selected pharmacies and retail stores.
For more information visit **www.controlice.co.za**

On any ONE of your purchases of:

Colour In and Make Your Own Chatterbox!

1. Cut out the chatterbox, and fold it in half diagonally, both ways.
3. Fold each corner into the centre
5. Fold the chatterbox in half, and insert your fingers and thumbs underneath the flaps.

PLAY:

1. Player 1 (the Chatterbox holder) asks Player 2 to pick an image and spell out the name.
2. Player 1 opens and closes the Chatterbox based on the number of letters in that word.
3. Player 2 then picks a visible number and Player 1 counts out the number, while opening and closing the Chatterbox accordingly.
4. Player 2 selects another visible number and Player 1 lifts the flap to reveal the question underneath!

2. Open the paper up again, and lay it down blank side up.
4. Turn it over, and fold each corner into the centre again.
6. Pinch your fingers together, and your chatterbox will take shape.

2. Open the paper up again, and lay it down blank side up.
